3. DESCRIPTION

TEC® Universal Seam Sealer is a latex based, non-flammable, carpet seam sealer specially formulated to prevent edge raveling and to seal the seams of most commercial and outdoor carpets including vinyl backs in direct glue down, stretch in, and double glue down installations. It is compatible with most carpet backings. It is fast setting and moisture proof. Not for use with vinyl sheet goods.

Key Features and Benefits

- Solvent free
- Non-flammable
- Moisture proof

Packaging

8 fl. oz. bottle (.473 L)

Product #15036264

Coverage

Approximately 160 lineal feet per 8 fl. oz. bottle.

Suitable Substrates

- ActionBac
- Latex unitary
- Rubber backed
- Jute
- Wovens
- Urethane (attached cushion)

Storage

Store indoors only. Protect from freezing.

Shelf Life

Maximum of 1 year from date of manufacture in unopened container.

Limitations

- Not for use with vinyl sheet goods.
- Avoid contact with the nap of the carpet; clean immediately with soap and water. Dried adhesive can be removed with mineral spirits, used sparingly.
- Protect from freezing.

Cautions

Read complete cautionary information printed on product container prior to use. For medical emergency information, call 1-888-853-1758.

This Product Data Sheet has been prepared in good faith on the basis of information available at the time of publication. It is intended to provide users with information about and guidelines for the proper use and application of the covered TEC® brand product(s) under normal environmental and working conditions. Because each project is different, TEC Specialty Products LLC cannot be responsible for the consequences of variations in such conditions, or for unforeseen conditions.

4. TECHNICAL DATA

Physical Properties

TEC® Universal Seam Sealer (131)	
Description	
Base	Latex
Physical State	Thin syrup
Color	White (dries clear)
Open Time	25-30 Minutes
VOC/Liter of Material	34 g/L
Freeze/Thaw Stability	Do not freeze

5. INSTALLATION INSTRUCTIONS

Application

When using the hot melt method of seam preparation, proper application of this product should be limited to just the backing edge and base of carpet nap. After the proper amount of TEC® Universal Seam Sealer has been put along either edge of the carpet, it must be rubbed into the edge. Be careful not to transfer adhesive onto the top of the carpet nap. Allow to completely dry prior to constructing a hot melt seam.

When using direct glue down or double bond methods of seam preparation - Apply a 1/8" bead with the applicator tip positioned at the carpets primary backing and the base of the carpet nap. Immediately butt to the opposite cut edge. Avoid adhesive contact with the top of the carpet nap.

Clean-up

Soap and water, safety solvent or mineral spirits.

6. AVAILABILITY
